

ODAPTIC

Collaboration & Integration Specialists

Surveys.

A Product Overview.

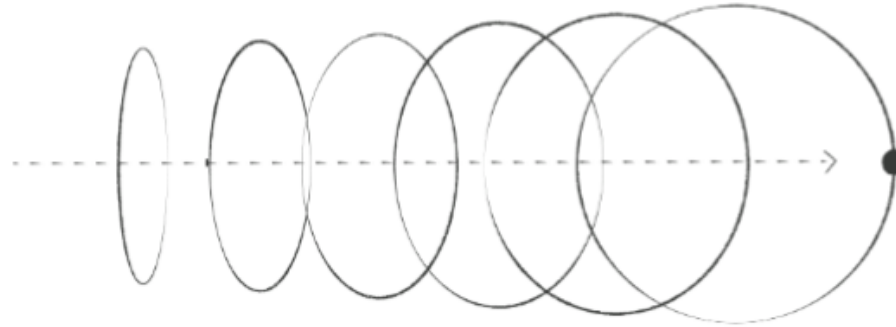

1800 **ODAPTIC**

A group of people are seated around a long wooden table in a modern office or meeting room. Several individuals are wearing bright orange high-visibility shirts with reflective silver stripes. They appear to be in a collaborative meeting, with some looking at each other and others looking towards the front of the room. The room has white walls, a large window on the left, and a television mounted on the wall in the background. The lighting is warm and focused on the participants.

**A purpose-built system to
maximise your team's
performance and collaboration.**

The ODAPTIC[®] Survey Suite.

High-Performance Index

Benchmark team's engagement and early performance indicators using industry-leading metrics.

Partnership Index

Measure collaboration and integration that support multi-entity delivery arrangements, to provide a solid foundation for performance.

Discovery Audit

Quickly assess system health and identify areas for improvement.

- ✓ AI-powered reporting and visual dashboards.
- ✓ Seamless survey distribution via email links.
- ✓ Cloud-based platform for accessibility anytime, anywhere.
- ✓ Performance benchmarks to help you understand "what good looks like".

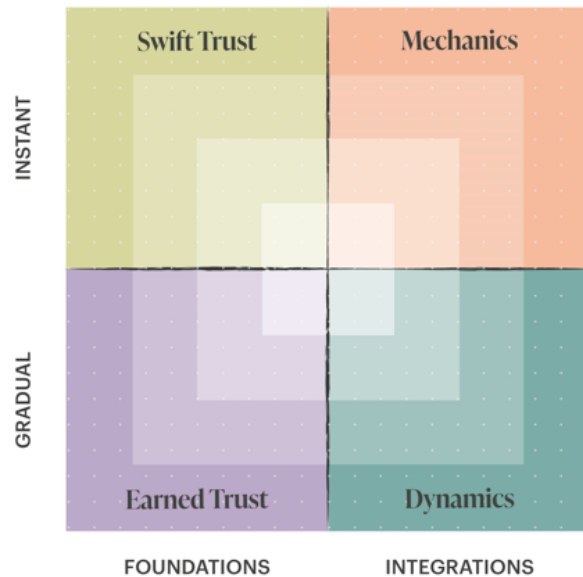

Based On The ODAPTIC® Approach.

ODAPTIC® are Australia's leading Collaboration & Integration Specialists.

We align leadership, team and process dynamics for **Optimal Delivery**.

The ODAPTIC® Survey Suite allows us to measure two different, but inherently entwined elements – collaboration and high performance. At ODAPTIC we distinguish between these elements to ensure that activities and outcomes are focussed to drive valid interventions.

Collaboration

Collaboration is not accidental—it's a capability that must be deliberately built and maintained to deliver high-performance outcomes.

High Performance

High-performing teams are critical to delivering outstanding outcomes in high-stakes, complex, multi-stakeholder environments.

The ODAPTIC Survey Suite.

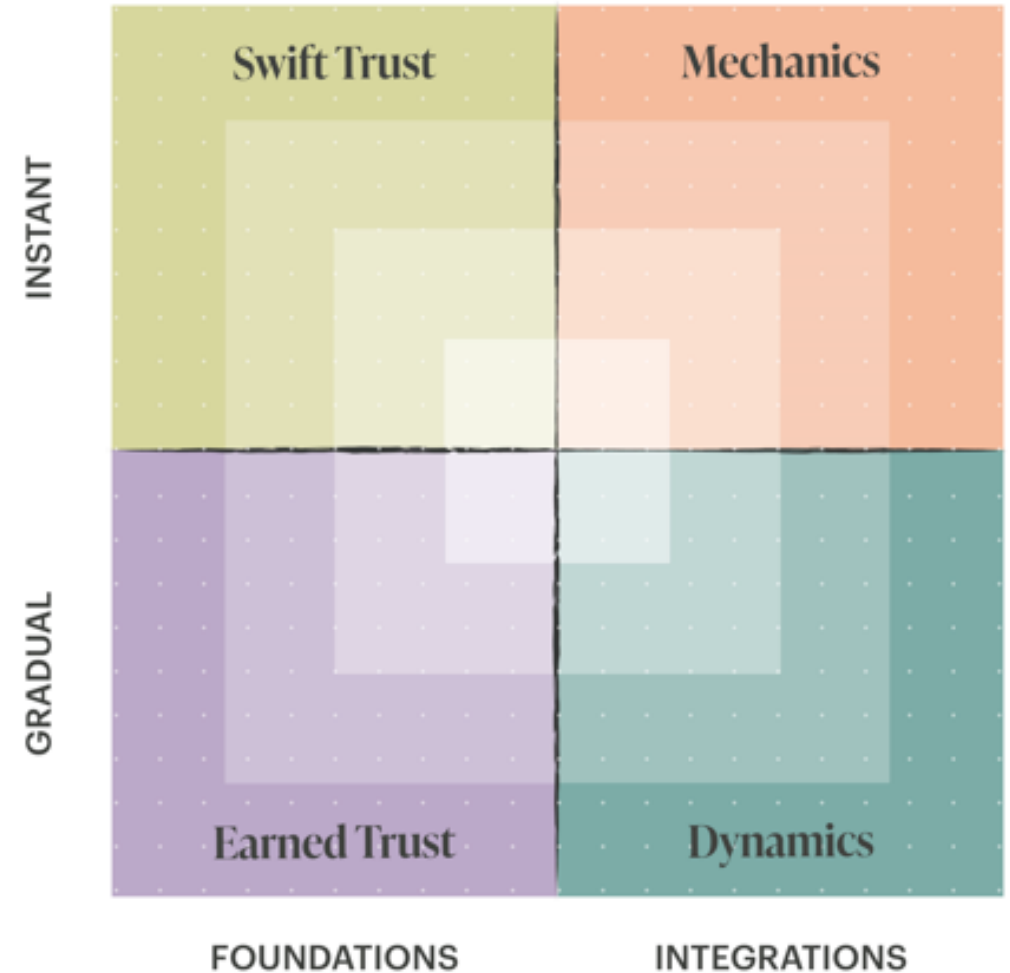

Partnership Index©

Measuring the quality of collaboration between partners.

Collaboration is not accidental—it's a capability that must be deliberately built and maintained to deliver high-performance outcomes, especially in complex projects. The Partnership Index measures the quality of collaboration between project partners, focusing on the intent, behaviours, and practices that enable effective joint delivery.

Benefits of implementing the Partnership Index

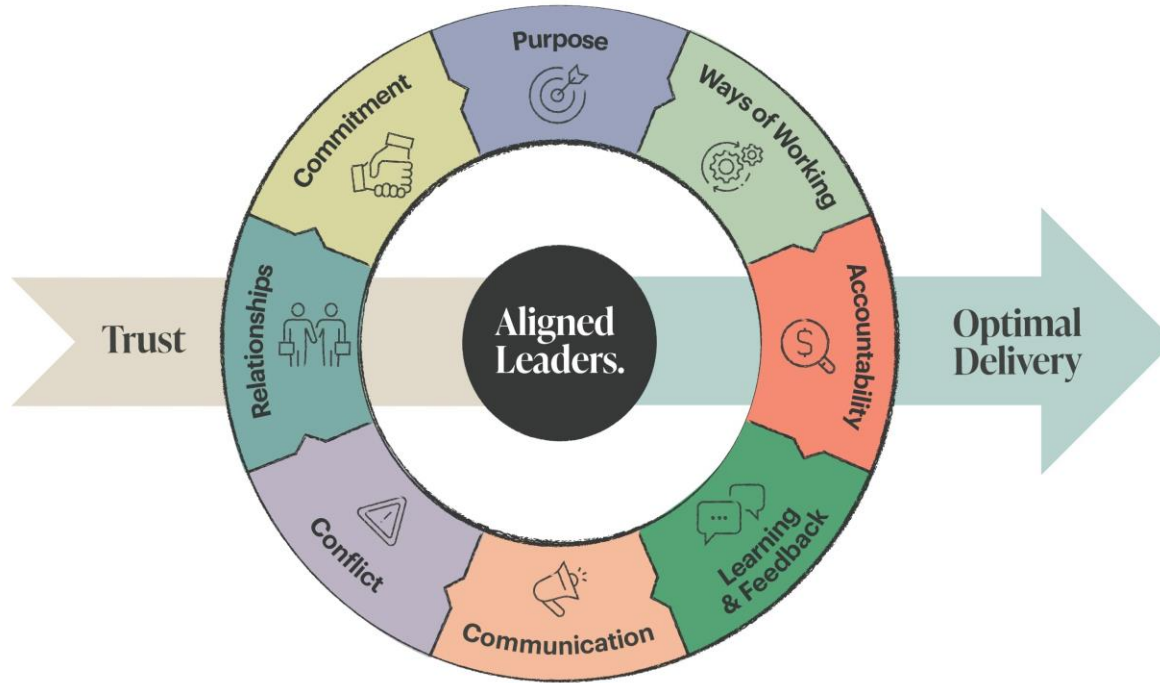

1. Early Warning System – Identifies potential collaboration challenges before they escalate
2. Data-Driven Insights – Provides measurable, actionable feedback on inter-entity collaboration
3. Stronger Relationships – Builds trust and transparency between project partners
4. More Effective Decision-Making – Enables leaders to address concerns proactively
5. Frequent, Critical Conversations – Encourages open dialogue on collaboration at all levels
6. Minimal Time Commitment – Quick and easy to complete while delivering high-value insights

The ODAPTIC Survey Suite.

High Performance Index©

The new project health check survey.

The High Performance Index is a team health and engagement survey designed to measure what drives high performance in complex, multi-organisation project environments. It draws on 20+ years of project delivery experience and team engagement research to give leaders practical insights into the conditions needed to build trust and lift team performance.

Benefits of implementing the High Performance Index

1. Diagnoses Team Health & Engagement – Helps leaders understand what's working well and where teams need support.
2. Aligns Teams on What Matters Most - Highlights the key drivers of high performance so teams can align around shared priorities.
3. Gives Leaders Clear, Practical Insights - Provides easy-to-use data to guide decisions and support team engagement.
4. Builds Trust and Shared Accountability - Encourages open conversations, the development of trust and stronger team relationships.
5. Early Identification of Issues - Helps detect early signs of disengagement or team stress so they can be addressed quickly.
6. Enables Benchmarking and Continuous Improvement - Enables teams to measure improvement and benchmark performance across projects.

The ODAPTIC Survey Suite.

Discovery Audit©

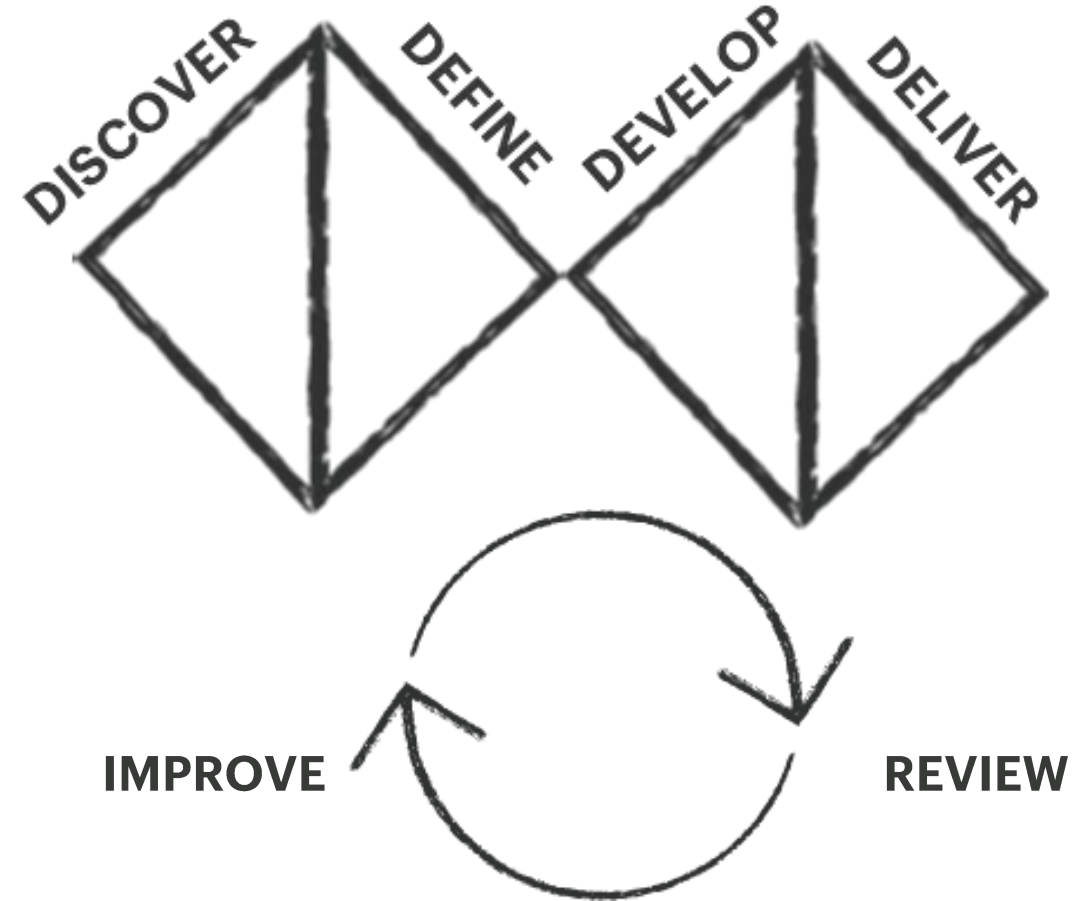

Determine where your culture is enabling your strategy.

And where it is not.

The ODAPTIC Discovery audit is a comprehensive evaluation of your teams values, practices, and attitudes to understand the current workplace culture and identify areas for improvement. It helps projects and organisations understand how their values, beliefs, behaviours and ways of working align with their mission, strategy and objectives.

Taking a multi-faceted approach, our Audits result in actionable steps to address root cause issues that limit the efficiency and effectiveness of your team. By taking action based on feedback, you can improve the culture and create a more positive and productive workplace for all employees.

Should you be interested in the Discovery Audit, contact our team today.

Tailored Insights To Your Team

Within the High Performance Index, we offer a base set of questions which measure the engagement and performance indicators of your team. In addition, we offer a suite of validated survey indices, which provide a deeper understanding of specific areas of interest. These indices are tailored to address the unique challenges and opportunities faced by teams and organisations, enabling you to gain actionable insights that drive performance in the areas that matter most.

- ✓ **Values Index**
- ✓ **Workforce Performance Index**
- ✓ **Wellbeing Index**
- ✓ **Diversity and Inclusion Index**
- ✓ **Psychological Safety Index**
- ✓ **Workplace Conditions Index**
- ✓ **Remote Working Index Leadership Index**

Built by High-Performance Coaches

Affordable Solution

Significantly cheaper than alternatives.

Quick to Set Up

Run your first survey in minutes.

Easy to Manage Results

Quickly assess system health and identify areas for improvement.

Developed by High Performance Coaches

Built by the experts who use it daily, and who understand real team performance needs.

Can be tailored for Project-Based Teams

Delivering complex projects in multi-entity arrangements and partnerships.

ODAPTIC Dashboard

Live results.

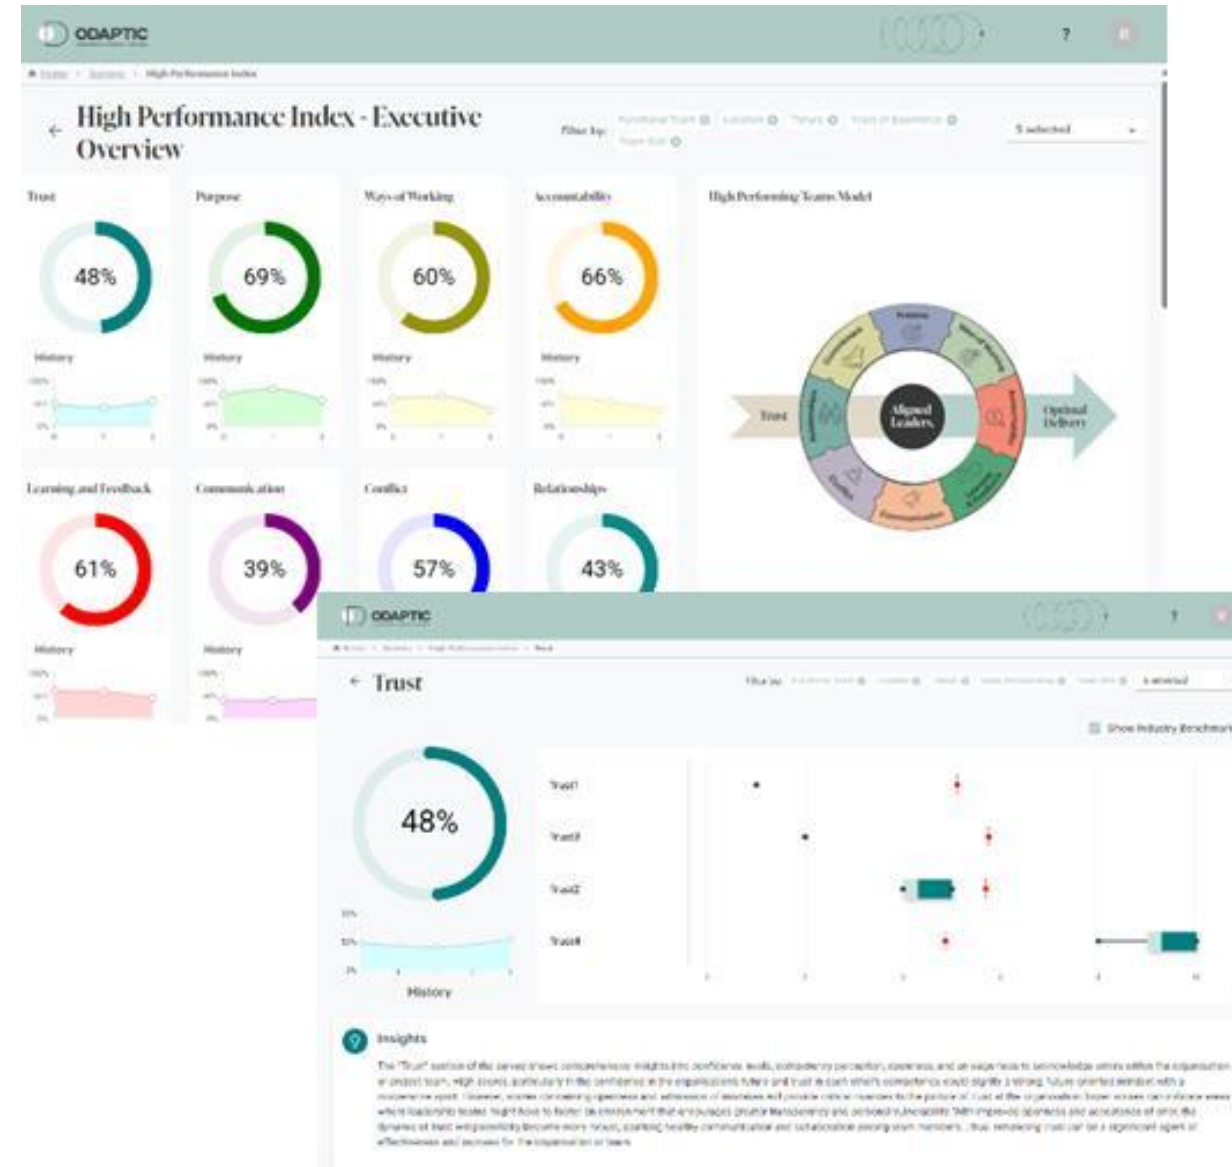

Empowered leaders.

Instant access.

As a self-directed system, you have all the controls. You determine who has access to results, refine the drafting of communications, set release and reporting dates.

Results are reported anonymously (min 3 respondents) and are brought to life through AI interpretation and recommendations, leading to easier to action data.

Comprehensive reports outlining the results for overall categories and individual components of the Index are available directly on the survey platform. You can easily download these reports in PDF format from the website for your convenience.
